WARNING

SPECIAL WARNING:

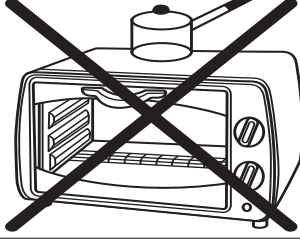

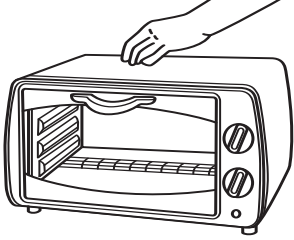

Recycling symbol, don't dispose the product with household refuse.

PRECAUTIONS

	Use the tray handler for inserting or removing of the tray. Attempts on bare hands would cause injuries.
	Do not apply water onto the glass panel, doing so might cause the glass to break
	To unplug, take hold of the socket and not on the cable. Pulling the cable might cause the cable to break.
	Do not position the unit close to source of high temperature or electrical fan during the usage of the unit. Doing so could affect the correct temperature control
	Do not handle the power cord with wet hands and always unplug when it is not in use. Failure to do so could cause fire.
	Is advised not to place the oven too near to a wall or flammable items.

PRECAUTIONS

	Do not place anything on the oven while using as the heat could cause deformation, cracking, etc.
	Do not touch the metal parts and glass panel of the oven as it will become extremely hot during usage and any carelessness will cause burn to user
	AC power must be taken from a properly wired outlet. Insert the plug completely into the socket, and do not connect multiple plugs to the same outlet.
WARNING: Do not operate appliances with damaged cord set, or plug. Any repairs should always be done by the Customer Service Centre or by an authorized service centre. This product must not be left unattended while it is connected to the supply mains.	

SPECIFICATIONS

MODEL NO.	CTO-12HP
RATED VOLTAGE / FREQUENCY	220-240V~ 50/60Hz
RATED WATTAGE	800 W
CAPACITY	9 L

FIRST TIME OPERATION

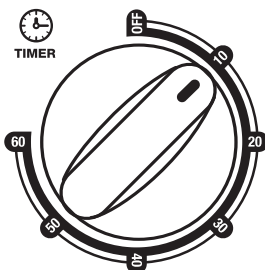

BEFORE USING THE UNIT FOR THE FIRST TIME:

1. Insert the tray and baking net.
2. Pre-Heat the empty oven for about 10 minutes.

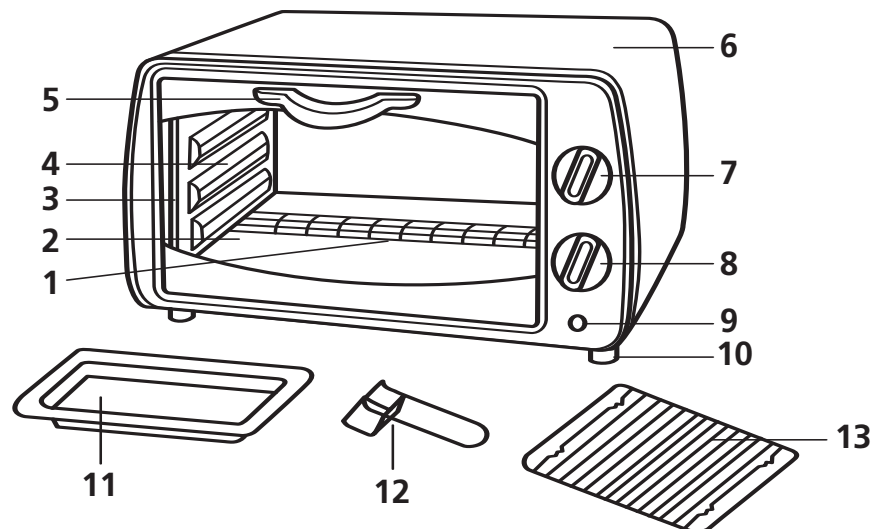

Note: There may be some smoke and burning smell at first, but this is not malfunction.

3. Set the arrow on the timer knob to the number which indicates the cooking time (minutes) according to the dishes you are going to cook. The timer will turn "OFF" automatically at the end of the selected time.
4. The oven can be turned off manually during cooking by turning the Timer counter-clockwise to the "OFF" position.

Note: Cooking time maybe longer if the interior of the oven is dirty
