Juice Extractor

CJX-SP450

Safety Protection

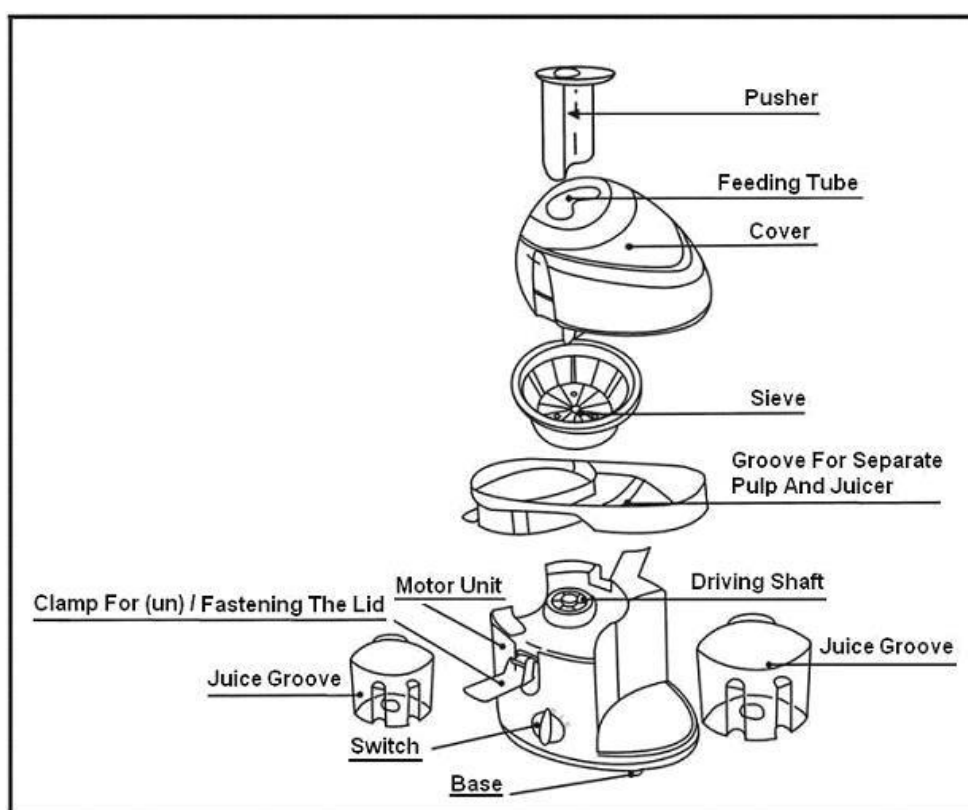

- Read all instructions carefully before using the appliance.
- Ensure that the voltage range given on the appliance-rating label corresponds with that of your main voltage.
- Keep children away when appliance is in use.
- This product must not be left unattended while it is connected to the main supply.
- This appliance is suitable for normal household use only and not for commercial use.
- Use the appliance only on a level working surface.
- Do not hold and slant the appliance while it is in operation.
- Never put your fingers in the filling shaft.
- Do not operate the appliance with a damaged cord or plug or after the appliance malfunctions or has been dropped or damaged. Return the appliance for examination, adjustments, or repair.
- The use of attachments not recommended may cause fire, electrical shock, or risk of injury.
- Never open the cover before the motor has stopped. Never immerse the motor base in water; wipe with a damp cloth to clean it.
- Unplug the unit when not in use and whenever you clean or move the unit.
- To disconnect the appliance, set control to off, grip plug and pull from wall outlet. Never pull on the cord.
- Repairs on electrical appliances must only be done by authorized service personnel. Faulty, unqualified repair work may cause accidents or injury to the user.
- Do not use the appliance if the rotating filter is damaged.
- If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.
- This juicer is equipped with a protection device. If the clamp fails to buckle the juicer, the motor cannot start. This is a safety protection feature.
- Always operate the juicer/blender on a flat, sturdy table, and operate it according to the following requirements.
- Do not uncover the juicer cap during operation and never insert your fingers or other objects into the juicer feed inlet before switching off the power to avoid damage or injury.
- Always check if the residue in the juicer slot is full. If it is, then turn the power off. Clean the residue before restarting.
- Always cover and fasten with buckle before use.
- This juicer is intended for household use only.
- Do not leave the juicer unattended when in use. Close supervision is necessary when operating the juicer near children.
- Unplug after every use. Only then should you pour out the juices.

Specifications

Model	CJX-SP450
Voltage	220-240V~
Frequency	50Hz
Power	250W

Operating Instructions

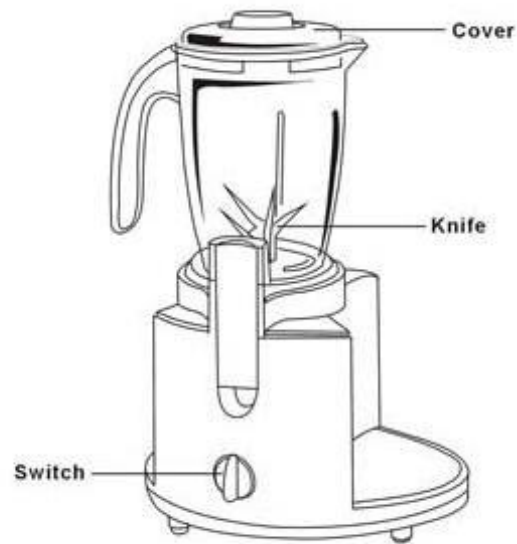

Using Your Juice Extractor

Juice Extraction

- Peel and clean the vegetables and fruits. Cut them into pieces so that they can be inserted into the juicer from the Feeding Tube.
- Switch on the main power and start the juicer for 5 seconds. Then insert the vegetables and fruits into the juicer's feeding tube evenly. Forcefully push them in using the pusher.

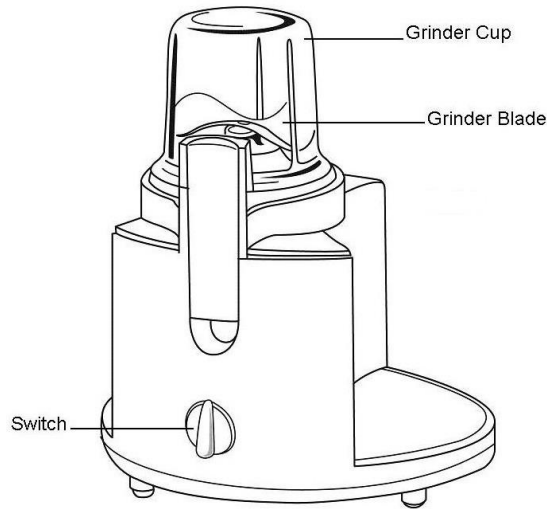

Using Your Blender

When you receive your Cornell Juice Extractor the appliance will already be assembled in juicer mode.

1. Lift the safety clips from underneath and pull outwards until the clips are facing down.
2. Lift off the feeder lid and remove the juicer-extracting tray and filter.
3. Insert the accessory connector, make sure the raised sections are outward facing and are in line with the safety clips.
4. Lift the safety clips and place them into the accessory connector until the grooves meet, once the clips are secure push the clips down to lock the connector into place.
5. Insert the blender into the accessory connector and twist anti-clockwise until the blender is secure. Your blender is ready to use now.
6. When using the blender, cut food into manageable pieces to prolong the life of the motor. If the blades are stuck, switch off the unit, and free any obstructions. Beware of the sharp blades.
7. Safety Interlocking Switch: The unit will not work if attachments are not correctly locked in place using the safety clips.
8. Once you have finished blending, twist the Blender clockwise and pull it away from the accessory connector.

Using Your Grinder

When you receive your Cornell the appliance will already be assembled in juicer mode.

1. Lift the safety clips from underneath and pull outwards until the clips are facing down.
2. Lift off the feeder chute lid and remove the juice-extracting tray and filter.
3. Insert the accessory connector, make sure the raised sections are outwards facing and are in line with the safety clips.
4. Separate the Grinders' base from its cup by holding the base and turning the cup anti-clockwise. Turn the base upside down and fill the cup with the desired contents, then re-assemble the Grinder base by turning clockwise.
5. Insert the complete Grinder into the accessory connector and twist anti-clockwise until the Grinder is secure.
6. Once you have finished grinding twist the Grinder clockwise and pull it away from the cup. The Grinder can now be used to sprinkle the food that has been ground.
7. This attachment is ideal for use with nuts, coffee beans and etc.

Cleaning and Maintenance

1. If the juicer is left idle for a long duration, it is advisable to store it in a well-ventilated place to prevent its motor from getting damp.
2. Do not wash the motor with water. Wipe it with a piece of dry cloth.
3. Disassemble the juicer blades. Lubricate the blade shaft and bearing with oil every month.
4. Use warm water and mild detergent to wash the juicer. Rinse and dry thoroughly.

Correct Disposal of this product

This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.
