

CORNELL®

User Manual

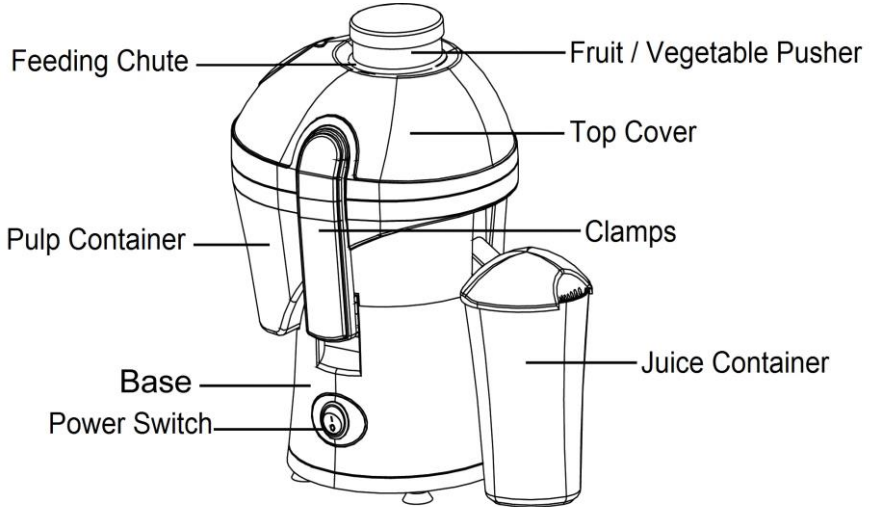

**JUICE
EXTRACTOR**

CJB-SP480

General Safety Precautions

1. Thank you for your purchase of this appliance. Read all instructions carefully. Keep this User Manual for future reference.
2. Always switch off and unplug the appliance from the electrical outlet **BEFORE** cleaning and also when not in use.
3. Never immerse the appliance, power cord or plug into water or other liquids. Please refer to the section on “Cleaning and Maintenance”.
4. This product must not be left unattended while it is connected to the mains supply.
5. If it is a detachable power cord, always connect the power cord to the appliance first **BEFORE** plugging it into the electrical outlet. To disconnect the appliance, switch off the power on the electrical outlet before removing the power plug.
6. Close supervision is necessary when operating the appliance near children. Ensure that the power cord does not hang over the work surface.
7. Do not operate the appliance with a damaged power cord set or plug. Any repairs should always be carried out by an authorized service centre.
8. Do not use the appliance for any purposes other than its intended use. This appliance is intended for household use only.
9. Do not use the appliance in the outdoors or in a damp area.
10. Do not insert your fingers or other objects into the stainless steel blades during operation. Take care of children especially.
11. Always place the appliance on a flat sturdy surface.
12. Do not place the appliance on or near a hot gas or electric burner, or near easily flammable materials.
13. This appliance should not be used by people who are physically or mentally impaired (including children) unless proper guidance is provided during operation.

Parts Identification

Specifications

Model No.	CJX-SP480
Rated Voltage / Power	220-240V~
Rated Power	260W
Frequency	50Hz

Operating Instructions

Assembling Method

- Unpack the juice extractor from its gift box.
- **Important:** Always ensure your juice extractor is unplugged from the electrical outlet before fitting or removing the blade assembly. Always handle the blade assembly with caution, as the blades are extremely sharp.

Juice Extraction

- Peel and clean the vegetables and fruits. Cut them into pieces so that they can be inserted into the juice extractor through the feeding chute.
- Switch on the main power and start the juice extractor for 5 seconds. Then, insert the vegetables and fruits into the feeding chute evenly. Push them in using the pusher.

Safety Locking System

This juice extractor is designed with a safety locking system. Unless the cover and both the clamps are positioned correctly or locked in place, the juice extractor will not operate.

Cleaning and Maintenance

- Always disconnect the appliance from the electrical outlet before cleaning.
- If the juice extractor is left idle for a long time, it is advisable to store it in a well-ventilated place to prevent its motor from getting damp.
- Do not wash the base with water because the motor and other electronic components are located in it. Wipe the base with a piece of dry cloth.
- Wipe the outer surfaces of the juice extractor with a mild and damp cloth or cleaner. Do not use a corrosive cleaner.
- The appliance is easier to clean if you do it immediately after usage.
- For proper storage, always place the juice extractor in a low humidity environment.

This marking indicates that this product should not be disposed with other household wastes throughout the nation. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.
