## User Manual

**Hair  
Dryer**

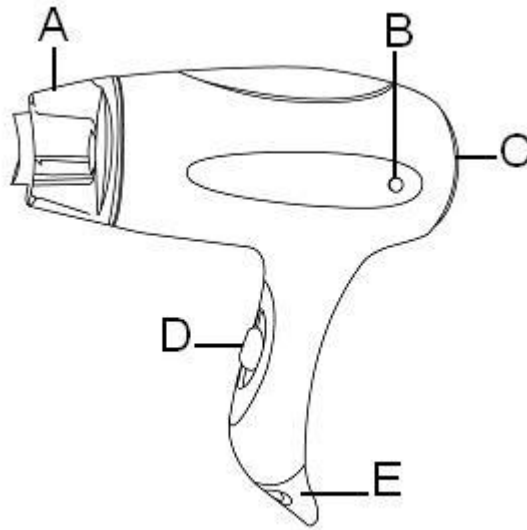

**CHD-E1200W**

## Safety Precautions

- Before connecting the appliance check that the voltage indicated on the appliance corresponds to the mains voltage in your home.
- **Keep away from water!** Do not use this appliance near or over water contained in baths, washbasins, sinks, etc. If, for some reason, the product has fallen into water: unplug from the mains immediately.
- If the hair dryer falls into water, pull the power plug out from the power socket immediately. **Never put your hands into the water.**
- Ensure a qualified electrician inspects the appliance before using again.
- Do not direct aerosols or water sprays into hair dryer.
- The Air Outlet Grill will become hot during use, therefore – do not obstruct the air outlets and do not allow the flex to be in contact with the Air Outlet during use.
- Inspect the flex for possible damage from time to time.

- When drying hair in rollers, do not allow clips, hairpins, etc. to protrude more than 10mm (finger width) to prevent contact with the live parts inside the hair dryer.
- Do not allow children to use a hair dryer without supervision.
- Please read these operating instructions carefully and explain all precautions to children.
- Always unplug after use and before cleaning.
- Keep hair away from the hair dryer's air inlet opening.
- A qualified electrician should only perform repairs to the hair dryer. Improper repairs may put the user at serious risks.
- **CAUTION:** DO not use the hair dryer near bathrooms, lavatory or any wash basins.
- Only a qualified technician be allowed to do maintenance and component replacements.
- After use, always unplug the hair dryer for safety reasons.

## Parts Identification

A - Concentrator

B - Indicator Light

C - Air Inlet Cover

D - Switch

E - Wire Protection
